## PROJECTS

### **Ocrator** - OCR to Speech

By simply pointing the camera to an image, it scans the text, translates and narrates into preferred language.

### **JanSampark** - Community oriented Web Application

A community oriented platform developed to unite various manufacturers, vendors and organizations in order to pool their resources for efficient utilization during the Covid-19 pandemic.

### **Know You News** - Sentimental Analysis of News Articles

Start your day with some uplifting news by filtering your daily intake of news using Sentiment Analysis.
